

# What's important to you in your local community?

Is it your local park, football pitch or community centre?

Is it butterflies, bees, wild flowers or hedgerows?

Or hedgehogs, frogs, foxes, community centres?

Perhaps it is clean water, clean air, and walks in the countryside?

## Please write what you care about on a green heart and hang it on the tree

We will send the hearts to our MPs to show them what we care about and want to protect in the natural world and our community

This is part of the Climate Coalition Show the Love Campaign and the work of Hucclecote Methodist Church as an Eco Church
